

**Statement of Intent March 2016**

<b>Patient Online Services</b>			
<b>Service</b>	<b>What we offer patients now</b>	<b>What we plan to offer patients</b>	<b>To be available by</b>
Online Appointment Booking	Online appointment booking is already available to all the practice patients.  The facility to book, cancel, view, amend and print appointments is available online	Continue to offer the same level of service to the patients	Already in place
Online Repeat Prescriptions	Online repeat prescriptions are already available to all the practice patients. The facility for viewing, ordering and printing is available online		Already in place
Patient Access to GP Summary Record	The facility for eligible patients to view their medications, allergies, adverse reactions is enabled from 20.03.2015	The practice actively promotes online services within the practice waiting areas and on the practice website.	Already in place
Patient Access to Detailed Coded Information		This practice plans to offer the facility for patients to view online, export or print detailed coded information held in their own records.	We are working with our system supplier and it is our intention to have this facility available to patients by <b>31<sup>st</sup> March 2016</b>

<b>Medical Records</b>			
<b>Service</b>	<b>What we do now</b>	<b>What we plan to do</b>	<b>To be available by</b>
Summary Care Record (SCR)	The SCR containing medications, allergies and adverse reactions is already enabled to be automatically uploaded at the practice.	Continue to use SCR	Already in place
Electronic Transfer of Patient Records	GP2GP record transfer is already enabled at the practice via an approved and secure system.  The practice transfers medical notes electronically via the GP2GP facility when a patient registers at the practice or de-registers, unless there is an issue with the receiving practice's computer system which does not allow or provide such transfers.	Continue to use GP2GP	Already in place
